FIRST STEPS

Essential steps after joining

1. **Select your Mentor**
   Select your mentor from the ones recommended to you. Your mentor will guide you throughout your SCALER Journey. You can change your mentor at any point.

2. **Attend Meet and Greet session** | On 17th May, 9pm 2 hour duration
   This session aims to familiarize you with the your Scaler team, shows you how to use your course effectively, and explains the upcoming activities in the next few months.

3. **Book your free mentor session** | Booking is open From 17th May to 30th May
   After selecting your Mentor, book your first complimentary session (30-45 mins) to discuss time management and effective learning strategies at Scaler.

4. **Attend Ask Me Anything session** | On 18th May, 9pm 2 hour duration
   This session is conducted to resolve your doubts and any questions might have about the course and your scaler journey.

5. **Start attending classes** | Starting from 20th May
   Your live classes will begin.

6. **Stay up to date with slack and WhatsApp groups**
   - On 20th May you will be added to your intake WhatsApp Canteen Channel (All the people who enrolled with you this month).
   - On 20th May you will be added to the Respective Batch Slack groups.

FAQS

Terminologies and calculations for Learner Rankings

What is PSP?

PSP means Problem Solving Percentage.
It is defined as **(assignment problems solved) / (total assignment problems to solve).**
It is a percentage of available problems that you've solved successfully.

What is Leaderboard ranking?

Leaderboard is created on the basis of **Reputation points / PSP.** It is to motivate you to solve more questions. It does not affect your placements.

What is the contest leaderboard ? How is it calculated?

Contest leaderboard shows how well you performed in a contest compared to your peers.
It is calculated based on your score and effective time taken.
If student X scored 80 points while student Y scored 70 points, then student X will have a better rank. However, if both student X and student Y have the same score but student X has effective time taken 30 mins while student Y has effective time taken 50 mins, then student X will have a better rank.

What is Reputation Points?

Reputation points are points you receive after solving assignments. If you solve a problem with 200 points, you get 200b points. Reputation points increase when you solve more problems.

NOTE 1024b = 1kb, 1024kb = 1mb

Important Policies

What is the placement policy ?

You can find the **placement policy** on your dashboard. Kindly review the policy for placement timeline and eligibility details.

How to manage my time?

Balancing work and personal life with the Scaler course is essential for success. We understand each individual has different challenges and needs personalised suggestions.
Hence, **we strongly recommend you to take the first Mentor session** to develop a personalised schedule and roadmap with your mentor to ensure your success.

How long will I have access to the Dashboard?

You will access to the recorded lectures and placement support till **6 months** after your course ends. You will have lifetime access to the assignments, homework, notes and WhatsApp and Slack channels.

What is Scaler Neovarsity Master's program ?

Scaler partnered with Woolf University to create a Master's Program to re-invent higher education in the field of Computer Science to make graduates industry-ready by matching the skill demands of the industry.

Enrolling for NeoVarsity will also allow learners to go through modules that can help learners transition to Software Engineering roles as well. These modules include Low Level Design, Software Engineering Project, Data Engineering.

What is Primer content?

Primer is a library of curated lectures and assignments you can review and solve till your classes start. It can help you revise or learn some concepts and experience the Scaler platform. It is not representative of the curriculum or how easy or hard your classes will be.

Is Primer content mandatory?

It is not mandatory to do primer. You can skip it if you're new to coding, find it too easy or too hard.

How does the course pause, reset, and resume feature work for learners?

- **Course Pause:** Learners can temporarily halt the course for reasons like emergencies, health issues, personal matters, backlog, or a short break. The pause lasts 1 or 2 months, excluding exams, and learners can resume after completing exams.

- **Course Reset:** For an extended break within the first 6 months, learners can request a course reset, allowing a fresh start. Note: Neovarsity learners don't have the reset option.

- **Course Resume:** After a pause or reset, learners join a new batch based on the pause duration.

Mentorship

What are Mentor Sessions and how many will I have?

- These individual mentorship sessions are enhanced to provide personalized guidance, support, and feedback, addressing your specific questions, challenges, and goals for a more tailored and effective learning experience.
- You will have eight 1:1 mentorship sessions during the course and an extra session to assist you in planning your Scaler journey called Plan Your Scaler Journey (PYSJ) available during the first 14 days of your course.

How can I select my mentor?

Simply select your mentor from the list in the Unlock My Mentor Now card on your Onboarding To-Do List titled as "**Get Started with your Scaler Journey"** Choose based on tech experience and career aspirations for the next 1-2 years.

What if I am not satisfied with the displayed mentor list?

If the displayed list doesn't meet your needs, use the Auto-assign feature to find a new mentor based on your preferences.

What should be done if the selected mentor has no available time slot?

If your chosen mentors have no available slots, you can initiate a time slot request or contact them through Mentor Chat on the dashboard. If the issue persists, reach out to customer support. Support is available via phone and chat from 11AM to 8PM, Monday to Friday.

What if my mentor fails to appear?

No worries – you can easily reschedule the session by selecting a new slot.

How can I reschedule or cancel a PYSJ Session

If you can't make it, reschedule or cancel up to 12 hours before the scheduled time. Keep in mind that the PYSJ session can be rescheduled or canceled only once.

What should be done when I have any other query and require support from Scaler?

In case of any query, customer support will be provided through the phone and chat channels of Scaler, from 11AM to 8PM, Monday to Friday and the same can be utilised for query resolution related to any part of the process

TAs and Help Request

What is the role of a Teaching Assistant?

Teaching Assistants (TAs) on the Scaler platform are here to assist and guide learners primarily in problem-solving. They address queries related to assignments, problems, or general questions through Text Help Requests using chat and Video Call Help Requests through virtual calls.

What sets Text Help Requests apart from Video Call Help Requests?

- Text Help Requests are suitable for specific question comprehension problems and can be initiated from the Assignment/Homework section.
- Video Call Help Requests, initiated from the Lecture video, are ideal for broader conceptual or theoretical queries requiring detailed explanations.

What expectations should I have for Help Requests?

- For Text Help Requests, expect code assistance through inline comments and textual explanations with examples.
- For Video Help Requests, anticipate a focused discussion on the mentioned query within a 15-minute timeframe.

Have more questions?

You can use our **Help Center** to find answers to your queries or reach our dedicated support team.
